given way under the terrible strain to which she had been subjected. The por woman had given birth to eleven children between 1860 and 1874, and not one of her numerous offspring was poseessed of a sound mind. Nine children at still living, one daughter, poseessed of a limited amount of intelligence, having been married. The remaining eight are cared for by their father in his home, which was in a most deplorable condition when Secretary Outand a member of the Committee vistal the place. Five of the children are dateling idiots, past all hope of redempities, while the other three are somewhat brighter.

Mr. Miller expressed a deep affection for his unfortinate children. He said that they were well fed and seemed happy, though he was not able to keep them well clothed on account of their habital the was learned that Mr. and Mrs. Miller were blood cousins of the first degree, and to this fact alone the members of the committee attributed the imbedility of their offspring. The father, however, had no explanation for the mait ter, and he jooked upon the affliction as a stroke of Providence.

"There is much feeling in the Falcon Nail Mill here over the importation of feeders and nailers from Wheeling and Pittsburgh districts, to put the mill on double turn, instead of taking idle nailers and feeders from the Youngstown district. It is openly charged by the men that it is done by the operators here to assist the operators in Youngstown to defeat the nailers. Five feeders have returned to

patch appeared in the Fittaburgh ChronicleTelegraph of last evening:
Chicaco, April 21.—The announcement
is made to-day that as the result of several (conferences between the locked-our
nailers of the Calumet Iron and Steel
Company and the company, the nonunion nailers, who-have been for nearly
six months with the company at its Cummings mills, are to be discharged and the
nailers given their old jobs. The basis of
the agreement is the "Mingo" scale. The
nailers, about thirty-six in number, are
now working at the Bay View Nail Factory of the North Chicago Rolling Mills
Company, but will at once return to Cummings. The nailers have been out for
nearly a year, and non-mion labor has
been employed for nearly half that period.
It is alleged that nearly 17,000 kegs of
nails made by non-mion nailers have
been returned to the company as unfit for
use, and that it will take several months
to repair the machines, so badly have they
been damaged by unskilled hands. The
nailers are rejoicing in what they consider
a great and notable victory, the Calumet
Iron and Steel Company being a member
of the Western Nail Association and having been supposed to be determined not to
yield. The contest has been bitter and Telegraph of last evening:
